

Cookie Comparisons

Information about three different cookies is given below. Find the cost per ounce for each cookie (round to the nearest cent). Then show your data in a graph. Remember the formula for unit price is

$$\text{unit price} = \text{cost of item} \div \text{number of units}$$

Fudge Hunks: 12 oz bag costs \$1.95

Crème Dreams: 9 oz bag costs \$2.39

Chunky Chips: 16 oz bag costs \$3.69
