

Photo Project Checklist:

Read through the checklist thoroughly!

**You can do more than just the editing technique required on each photo.*

Just make sure that the photo you turn in has the type of editing technique that you saved it as (ie – if you save a photo as “NiemannCROP” make sure that you actually cropped the photo)!

- Resize all of the following photos to either 8 inches in height (portrait) or 8 inches wide (landscape)
- Crop one of your photographs to create a tight and interesting composition
 - * save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “yournameCROP” (NiemannCROP)
- Change one of your photographs to black and white and change the contrast and brightness
 - *save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “yournameBW” (NiemannBW)
- Change one of your photographs to a monochromatic color scheme
 - * save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “yournameMC” (NiemannMC)
- Put a filter on one of your photographs
 - * save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “yournameFILTER” (NiemannFILTER)
- Try the “coloring book” technique on one of your photos
 - * save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “yournameCB” (NiemannCB)
- Turn in two more “free choice” photos with any type(s) of editing techniques that you would like to try
 - * save this photo on the Ydrive/Niemann/5th Grade Photo/Finals folder and name it “your nameFC” (NiemannFC)
